

Spring 2024 Semester Registration Information

Semester Course Schedule

The Spring 2024 semester begins January 29, 2024; classes end May 10. See calendar on page 5. **All classes will be conducted at 16 W. 10th Street.** Students are expected to attend class on campus.

Registration

Students register for classes and supervision sections online using Blackbaud's student portal beginning January 3. As always, **completion of registration is contingent upon having obtained the Advisor's or Fellow's approval and upon submitting the PT 7 form digitally signed by the approved training analyst.**

A **\$150 late fee** will be charged for tuition processed **after January 19, 2024.** Students log in to the Blackbaud student portal at <https://cmps.mycampus-app.com/> to indicate the courses and supervisions they wish to take. This function becomes live on January 3. When students have indicated their course and supervision preferences online, they email the Registrar (registrar@cmps.edu) to let him know they are ready to pay tuition. Extended payment plans are available.

Registration is finalized only if tuition and the completed PT 7 form are submitted, and if all previously borrowed materials have been returned to the library. Certificate and Research Candidates must be current with their monthly room reports in order to complete registration. Course credit is not given for semester work unless everything has been properly submitted.

The \$100 registration fee covers library services, journal subscription, Center ID card, and all Center mailings.

Leave of Absence

Students who are unable to register for the semester but who wish to maintain their enrolled status send an email requesting a leave of absence to their academic advisor *and* the registrar explaining why they are electing to take a leave. They register for MM Maintaining Matriculation and pay the \$100 Maintaining Matriculation fee to ensure all Center mailings, journal, and library use (except for PEP privileges). Students on leave of absence continue in PT 7.

PT 7 / PT 8 Analyst Statement

The PT 7 form, signed by the training analyst(s) and returned with the registration form every semester, confirms that the student is in the required weekly analysis and tracks *the number of sessions since the previous PT 7 was submitted*. New students use this special PT 7 form. **It is the student's responsibility to report any interruptions in analysis or change in the frequency of sessions to the Advisor or Fellow.** Students in group analysis submit the analogous PT 8 form.

Advisement Orientation Group

This group orients students to all aspects of the training process and facilitates getting to know one another outside of class to forge mutually supportive relationships. First-year students are encouraged to attend. The group meets Tuesdays, 4:00 to 5:00 PM, and is free of charge.

Graduation requirements regarding supervision

CMPS graduation requirements specify a minimum of 200 hours of *individual* supervision with 3 different supervisors. This can be accomplished in two ways: (1) 50 hours of PT 211i, a minimum of 100 hours of PT 311 with a different supervisor, and a minimum of 50 hours of PT 411 with a third supervisor; OR (2) 50 hours of PT 211i and at least 50 additional hours of PT 311 with the same supervisor, at least 50 hours of PT 311 with a different supervisor, and a minimum of 50 hours of PT 411 with a third supervisor. The PT 7 individual analyst or PT 8 group analyst may not serve as a supervisor.

- Students who entered the Referral Service prior to Fall 2019 may comply with supervision requirements for graduation from their entry bulletin.
- Candidates with larger caseloads who need additional supervision may add one or more PT 311 supervisors or enroll in PT 611, but PT 611, as small *group* supervision, does not fulfill any graduation requirement.

Assigned Readings

Most classes have a reading assignment every week, including for the first class meeting of the semester; students are expected to have read all the selections assigned for every class. The CMPS faculty uses the Blackbaud Education Management System to post syllabi and readings not available in PEP (and for a variety of other tasks). Consequently, in order to be able to fully participate in class, every student needs access to Blackbaud.

Library Access

When the library is open, the copier may be used to photocopy assigned readings. Students establish an account and set up a numerical password with the librarian in order to use the machines.

Referral Service: Certificate Candidacy and Research Candidacy

Referral Service candidates consult their Fellows and the [Referral Service manual](#) for instructions about the appropriate sequence of courses and clinical supervision. Candidates assigned Center referrals have all their cases supervised in **PT 211i** Beginning Supervision of Consultation and Referral Service Cases, **PT 311** Supervision of Consultation and Referral Service Cases, **PT 411** Control Analysis of a Consultation and Referral Service Case, and/or **PT 611** Small Group Supervision of Referral Service Cases. (PT 611 is a supplement to PT 311—not an alternative to it.) **In order to receive credit for their supervision hours, candidates register for all their supervision in Blackbaud.**

Referral Service candidates also register for PT 490 Referral Service Lab. The Referral Service Lab fee is divided into two semiannual payments of \$475 for first-year Level II students, and two semiannual payments of \$525 beginning with the second year as a Certificate Candidate. The fee covers five scheduled referrals, weekly consultation with the Fellow, and telephone answering service.

Curriculum for Research Candidates

Until their final semester, Research Candidates (Level III students) pay a minimum total in tuition and fees of \$1775 per semester: \$750 for six 50-minute sessions of **PT 527** Directed Research, \$400 for **PT 2612** Seminar in Clinical Practice, Psychopathology, and Psychodiagnosis III, \$525 for **PT 490** Referral Service Semiannual Lab Fee, and \$100 for the registration fee. When the PT527 Research Supervisor determines that the final paper is ready for approval, the Research Candidate pays \$390 for the Research Reading Fee (**RF 101**). This covers the cost of final approval of the paper by the second and third readers, two members of the Research Committee other than the Research Supervisor.

Work/Study Program

Students wishing tuition assistance may apply for a Work/Study internship with the Registrar, Mr. Guttman. Candidates are paid at an hourly rate. A limited number of positions are available.
